but even then only to land speculators-That time has been allowed to pass by, and now the land is put up on such conditions, that U 20 gallone cachi. speculators are effectually axeluded -- cousequently as it is quite impossible that anyone can require ground thereto build upon, the sale must assuredly prove a dead failure.

To peruse the conditions of this sale, miy one would suppose that the government were pesternd for applications for ground at Kowloon. No one would for one moment imagine that building had been quite overdone in the Colony, much less that the government had wantonly depreciated the price of vacant ground 50 per cent. Some of our readers may suppose that Go-

vernment do not expect to effect univ sule, but that their object is simply to place the ground on the market and to jog it off. We think however that a very superficial study of the subject will illustrate, that so much ingenuity to overreach intended purchasers—so many olover choeseparing dodges such a pradilection for striking a one sided bargain, would never have been resorted to unless success

What is the reason that the conditions are not published? Simply because people would then understand their unreasonableness, and some official name would have table appended making them binding on the government. What is the reason that the Governor does not now aight them? Simply because if he did they would be binding on him, and he hopes to insort yet some more cheesoparing

everreaching clauses. What is the reason that neither the grade of the inland lots, nor the goundings of the water lots are given in the plan submitted? Siml ply because people might be deturred from buying if they know the tritli.

Intely stood. We ask our readers to peruso them carefully, and to tell us if they can see to what the government sland bound? The filling in of the water lots must be completed by the purchaser within six months. Why surely the purchaser cannot confide to the filling in until the seawall is completed! Yet this wall the purchaser may not build himself, but is compelled to pay an sum for which the govermmont may demand for buildingit -- whilst the government on their part me under no oblightion whatever either us to time or to unything else. If the purchaser fills in without a scawall,

the filling in will surely be washed away; and yet he is told that a condition of the sale which will be strictly enforced, is that he must fill in The same with roads on the inland lots, not a word is said about drains, non are the even marked on the plan
